

Dear User,

If any Hexaware IT assets, i.e Laptop/Desktop/headphone/mobile/tab/desktop is assigned to you, request you to plan for submission to initiate your STG clearance.

If you do not have any IT assets (Laptop/desktop/headphone/mobile/tab) assigned to you, please revert back to your respective SPOC.

Note:

- For Mac Book, I-Phone or any phones, if device is registered from your personal id, it needs to be released before submitting to STG and your personal data to be deleted by respective users.
- Please plan your clearance and submit your respective assets to STG before **4 hours** to avoid delay in your clearance.
- Failing to submit assets to STG, will initiate asset cost recovery on actuals as it is end user responsibility to ensure device is submitted to STG on or before Last working day..
- If asset is submitted in damage conditions, we will hold maximum amount of cost and post cost of repair is shared, we will share update with HR team to release the payment against the device.
- STG clearance will be provided on last day of exit even though no assets are tagged to the user.

Important Information for Submission of Assets to another site of Hexaware:

- ❖ End users have to plan and submit respective device at Base location as no exception to it.

Below are the options that you could choose from for return of the asset.

Sr #	Options	Timelines for confirming the option	Timelines for returning the asset	Charges recovered from Employee' Full & Final settlement
1	Employee can surrender the asset to his or her base location before last working day.	On or before last working day(LWD)	On or before last working day(LWD)	Not Applicable
2	Employee can courier the assets to his/her base work location	On or before last working day(LWD)	On or before last working day(LWD)	Damage/theft/loss charges if applicable

*** The preferred options are 1 - 3 because the Local courier companies are neither ready to take the ownership of sending the assets safely & securely nor are they giving any guarantee or assurance for damage or loss of asset during transit. The courier company that we have partnered with is adhering to all our terms and conditions and have an added insurance component as well.

Important points to be noted:

- If you don't submit device on last working day, STG clearance will be provided as per actual cost of devices allocated to the user which are pending for submission.

- If you choose option 2, you are required to submit the attached disclaimer to STG and ensure device reach STG on last working day.

**** As per this disclaimer, you will be accountable & responsible for any damage or theft or loss of assets occurring during transit and the cost will be recovered from your full & final settlement. In case the damage or loss of Company's Asset is higher than Full and Final Settlement, You shall be required to pay the difference amount.*

- **If you don't choose either of the options by last working day,** by default cost of device will be recovered from your Full & Final settlement.
- We are enabling this process to make the separation process smooth and easy. This will also help us in initiating your Full & Final Settlement process in a timely manner.
- All assets to be submitted to Hexaware during separation like Laptop/Desktop/Phones/Bag/Adaptor/ID card/Datacard etc.... to avoid charges of recovery.
- While couriering the laptop, please ensure that photographs are taken to document its condition. These should include the screen (with the screen turned on), the front, back, and all sides to confirm that the laptop is in good condition. These photographs must be sent via email for verification.
- If the laptop is received at the office in a damaged condition during transit, the user will be required to pay the differential amount after the insurance settlement.
